출판사 소개

Association for Computing Machinery(ACM)

1947년 설립된 Association for Computing Machinery
(http://www.acm.org)는 컴퓨터 및 IT 관련 모든 분야에 대한 최신정보를
제공하는 협회로서, 현재 전세계 80,000여 명 이상의 회원을 보유하고
있습니다. ACM 회원들은 단순히 기술보고서나 논문을 게제하는 활동 외에
연구 시 발생되었던 문제들과 해결방법, 그리고 수록된 기술보고서나 논문
에 대한 Review를 제시 함으로서 컴퓨터 관련분야의 가장
권위 있는 Community를 형성하고 있습니다.

수록내용

1. 주제분야 : 컴퓨터 공학분야

2. 수록내용 :

　* **<u>The ACM Digital Library</u>**

　컴퓨터 공학 분야의 Journal, Magazine, Transaction, Conference

　Proceeding, Publications by Affiliated Organizations, Book,

　Technical　Reports 및 Newsletters의 원문(PDF형식) 및 논문의

　서지 정보 제공

　- 1954년부터 현재까지

　- 1,700,000여건의 서지 Records

　- 매년 2만 5천 여건의 Records update

　- Audio, Video, animation을 포함한 800개 이상의 multimedia 파일

- Software Category Editor Needed for *Computing Reviews*
  Computing Reviews, the post-publication review and comment journal of ACM, is seeking a volunteer interested in serving as a category editor for a segment of the software area. Please see the Software Category Editor search page for more information.

- New Journal: *ACM Transactions on Interactive Intelligent Systems*
  ACM Transactions on Interactive Intelligent Systems (TiiS) publishes research on the design, realization, or evaluation of interactive systems that incorporate some form of machine intelligence. Applications include user interface technologies; recommender systems and information retrieval; automated usability testing; human-robot interaction; semantic technologies; gaming; and mobile and ubiquitous computing. See the first issue's table of contents in the Digital Library.

CSUR ACM Computing Surveys (CSUR)

These comprehensive, readable tutorials and survey papers give guided tours through the literature and explain topics seek to learn the basics of areas outside their specialties. The carefully planned and presented introductions in _Comput_ _(CSUR)_ are also an excellent way for professionals to develop perspectives on, and identify trends in complex technolog issues have covered image understanding, software reusability, and object and relational database topics.
JACM Journal of the ACM (JACM)

The _Journal of the ACM (JACM)_ aims to provide coverage of the most significant work going on in computer science, broadly construed. We publish original research papers of lasting value in computer science. To be accepted, a paper must be judged to be truly outstanding in its field and to be of interest to a wide audience. We are particularly interested in work at the boundaries, both the boundaries of sub disciplines of computer science and the boundaries between computer science and other fields.

JDIQ Journal of Data and Information Quality (JDIQ)

JDIQ's mission is to publish high quality articles that make a significant and novel contribution to the field of data and information quality. JDIQ welcomes research contributions on the following areas, but not limited to: Information Quality in the Enterprise Context; Database related technical solutions for Information Quality; Information Quality in the context of Computer Science and Information Technology; Information Curation.

JDIQ accepts research conducted using a wide variety of methods ranging from positivists to interpretive methods, systems building descriptions, and database theory, as well as statistical analysis, mathematical modeling, quasi experimental methods, hermeneutics, action research, and case study. JDIQ accepts diverse research methods that are customary in different research backgrounds and traditions, both quantitative and qualitative. Research papers need to demonstrate the use of a rigorous method or methods. Research papers also need to provide valuable and relevant implications for applying their findings and solutions in practice.

ACM Journal on Experimental Algorithmics

JEA Journal of Experimental Algorithmics (JEA)

The ACM _Journal of Experimental Algorithmics (JEA)_ is the first publication devoted entirely to experimental work in algorithms and data structures. _JEA_ is also the first on-line-only journal published by ACM, and it is available through a variety of protocols including http, ftp and ftpmail.

JETC ACM Journal on Emerging Technologies in Computing Systems (JETC)

JETC covers research and development in emerging technologies in computing systems. Major economic and technical challenges are expected to impede the continued scaling of semiconductor devices. This has resulted in the search for alternate mechanical,

1 Improving WCET by Optimizing Worst-Case Paths
Wankang Zhao, William Kreahling, David Whalley, Christopher Healy, Frank Mueller
March 2005 **RTAS '05:** Proceedings of the 11th IEEE Real Time on Embedded Technology and Applications Symposium
Publisher: IEEE Computer Society
Full text available: 🔲 Publisher Site
Bibliometrics: Downloads (6 Weeks): n/a, Downloads (12 Months): n/a, Downloads (Overall): n/a, Citation Count: 2

It is advantageous to perform compiler optimizations to lower the WCET of a task since tasks with lower WCETs are easier to schedule and more likely to meet their deadlines. Compiler writers in recent years have used profile information to detect the ...
